Chelan, WA. 98816

Dear Cascade Mechanical,

I am writing this letter to let you know how happy we are with our XR 15 Heat Pump that was installed on July 25, 2018 has saved us this summer. We have had bad fires up the Twisp River and without the air conditioner I am sure we would have had lots of smoke in the house, but the air conditioner kept it all out. Sometimes the smoke was so thick we could not even see the main road across the river from us. Or up in our upper pasture. Think it is finally over, the fire crew came on Saturday and pulled the pump and fire hoses out of our yard and out of the river.

Thank you again, the guys did a great job installing the Heat Pump.

John & Renee B.
